Profile of the African-American Newspaper Readers

The African-American Newspaper Readers are major consumer that are community-minded and loyal. Data shows that 50 percent of African-Americans nationwide do not read a daily newspaper and 44 percent do not read a Sunday Daily newspaper.

Of the 5 million readers the majority have some college, a degree which equates to better paying jobs and homeownership.

That stability and strength of the African-American newspaper reader is demonstrated with 55.5 percent owning their own. The combination of homeownership and children in the home (47.3 percent), emphasizes that African-American newspaper readers have significant buying potential. Twenty percent of African-American newspaper readers are professional or own a business, pointing to strong incomes. Almost 40 percent of these readers have incomes over \$50,000. Boasting buying power of \$631 billion, African-American newspaper readers establish themselves as a viable consumer market that should not go untapped.

A closer look at the buying potential of

African-American newspaper readers builds a strong case for major retailers and national corporate advertisers to utilize Black newspapers to attract this lucrative audience.

With changing demographics of America, the questions American markets must ask themselves is "Are we reaching the new consumers needed to increase the companies market share and profit margin?" Are we locked in traditional methods of advertising that do not work in reaching today's consumer?

Readers are no the only assets of the Black newspapers. These publications operate both as the information source for the Black community and as owners of reading businesses.

Today, NNPA and its members offer the marketing and advertising decision-makers an opportunity to invite this lucrative market of consumers to purchase your products and services through the pages of our publications.

■ Some College

EDUCATION

Two out of three Black newspaper readers have some college, a degree and/or advanced degree. This equates to better paying jobs and more spendable income to buy both necessities and luxury items.

Career Profile

OCCUPATION

The career profile of the African-American Readers reflect a significant number of professionals who either own their businesses or are decision makers in their company. This results in a person who buys both at home and at work.

Children at Home

FAMILY
One out of two African-American Readers have children in the home. That means more expenditures and shopping.

Buying Power \$631 Billion in 2002

INCOME	PERCENTAGE	Percentage of Readers
\$15,000-\$24,999	15.7%	61.7%
\$25,000-\$34,999	16.6%	\$35,000+
\$35,000-\$49,999	23.8%	37.9%
\$50,000-\$74,999	17.7%	\$50,000+
\$75,000-\$99,999	11.2%	20.2%
\$100,000-\$149,999	5.4%	\$55,000+
\$150,000+	3.6%	

The lucrative income of the African-American Reader emphasizes the importance of purchasing power and the value of this growing community.

The African-American Readers

Reader Profile	U.S. Black Adults	Black Newspaper Readers
TOTAL	32,147,382	8,400,000
Median Age	39	42
Male	43	41
Female	57	59
College Graduates	16	17
Household Income \$50K+	34	37

The African-American Readers are educated, have spendable income and represent a sizable group of potential shoppers who need a formal invitation to spend dollars. The age factor has a direct relationship to higher spending because of family-size and homeownership resulting in more purchases.

HOMEOWNERSHIP

The stability and strength of the African-American Readers is obvious with over 50% owning their home. In the last decade the focus on homeownership has shown a substantial increase of homeownership among Blacks.
